Scope of the Journal

ISSN: 1741-8496 (Print), ISSN: 1741-850X (Online)

Information is ubiquitous, with unprecedented rates of expansion and applicability. Its effects on privacy, security and integrity have attracted increasing attention. IJPSI presents innovative research in the theory, application, implementation, analysis, design, evaluation of information privacy and security. It also aims to bring together researchers in relevant disciplines, exploring issues in information integrity, defined as information accuracy, consistency, reliability. Thus, IJPSI covers up-to-date information technology in social networking, mobile computing, intelligent techniques and big/open data, with applications across multiple areas.

Contents:

IJPSI publishes original papers, short papers, and review papers. Special Issues devoted to important topics in information privacy, security and integrity may also be published.

Topics covered include:

- Privacy and security foundations
- Privacy-enhancing technologies
- Privacy-preserving computing
- Privacy policies and laws
- Management aspects
- Cyber, network and communication security
- Social network information privacy/security/integrity
- Secure computing and systems
- Database privacy and security
- Risk analysis, modelling and management
- Trustworthy computing, management, evaluation
- Theoretical foundation of information integrity
- Information integrity structure and design
- Legal, procedural, regulatory, ethical aspects
- Interactions/integration/fusion/applications
